**MEETING OF THE BOARD OF HEALTH.**—At a meeting of the Board of Health, held last night at the Mayor's office, the president, C. C. Barry, in the chair, there were present Messrs. Radd, Ford, Robinson, Smith, Nalls, Neale and Janney. The following bills were ordered to be paid:

J. B. Johnson, for wages paid by him to employees at the hospital, \$27.00; W. F. Dennis, five months' rent of hospital, \$125.00; B. Wheatley, for coffee, \$23.00; R. T. James, for wood, \$12.00; M. J. Rafferty, for clothing, \$5.00; Gannon & Co., for groceries, \$54.25; total, \$214.25.

On the recommendation of Dr. Johnson, the wages of Susan Scott, for services at the hospital, were ordered to be advanced to \$10.00 per month from the 20th instant.

On motion of Mr. Barry, it was resolved that the secretary be directed to publish the standing order requiring citizens to cleanse their premises.

On motion of Mr. Robinson, it was resolved that the Superintendent of Police be instructed to procure time and have it spread in the gutter and alleys of the city, where it is needed.

A diagram of a Marine Hospital, which it is proposed to build on the Poor's House lot, was submitted by Dr. Johnson to the members of the Board, with explanations, for their inspection.

The following report was read and ordered to be spread upon the minutes:

**President and Members of the Board of Health:**

Gentlemen.—I have the honor to report that in obedience to your appointment, I took charge of the Smallpox Hospital on the 18th day of January last, and I take pleasure in saying that under your wise and humane orders, it has proved not only a great success, but a comfort and blessing to the community in whose behalf you were acting. To the unfortunate fellow creatures who were afflicted with smallpox, and who were without means to provide themselves with the comfort so necessary to a favorable termination of their cases, your kind intervention in their behalf, made to them all the difference between life and death, and they never failed to express themselves in grateful words for your kindness. Your services were not only of vital good to the diseased, but of inestimable value to the well; for, by your prompt orders to remove to the Hospital such persons attacked with the disease, as could not be provided for according to the law upon the subject, you separated the diseased from the well, and thereby under the blessing of Divine favor, stopped the spread of a terrible malady which at the time you began your labors, threatened to be a fearful epidemic, and as a consequence, you gave quiet and ease to the popular mind wrought to the highest degree of fear of the disease and consternation in regard to its spread; and so effectual was your service in this particular, that you inspired a public confidence that the spread of the disease would be controlled with all the energy that human attention could command.

Since the Hospital was instituted, thirty-six cases have been admitted—thirty-five colored and one white. Of this number seven died, one white and six colored. Three of the cases were in a dying condition at the time of their admission, and four died during the second week of the disease. During this time, I attended five out-patients. Of this number five died, showing that the percentage of mortality was much less at the Hospital than without, being one of five at the Hospital, and one of three without. Five cases are at present at the Hospital, and two of the five are convalescing, and will be ready for discharge during the week. The greatest possible care is taken to have the patients thoroughly disinfected before leaving the Hospital, and of all the cases that have occurred, not one has traced its infection to any person or thing connected with the Hospital.

During the last six months, I vaccinated over a thousand persons of this number, over five hundred were vaccinated gratuitously.

From a report that was prevalent that I vaccinated for nothing or without charge, and this I did not regret, for I had an abundance of pure virus and much of my time was not consumed in its insertion.

I return sincere thanks to the Superintendent of the Police, Mr. Clifford, for the prompt and efficient aid, which he has always afforded me, and to special policeman, Jno. Boyer, for a faithful and energetic discharge of the labors and sometimes very unpleasant duties assigned him; and to you, gentlemen, I offer my grateful acknowledgments for the kind and courteous considerations, with which you have always accepted my suggestions, and for a favorable recognition of the humble service, which, through the blessing of a benign Heavenly Father, was vouchsafed to me to render you.

Most respectfully,  
J. B. JOHNSON, M. D.

On motion of Mr. Barry, it was unanimously resolved that the thanks of the Board be tendered to Dr. Johnson for the manner in which he has discharged the duties as physician. A resolution was introduced and unanimously passed allowing Dr. Johnson the sum of sixty dollars per month for his services, and that the president and secretary be directed to approve his bill for five months' attendance, to June 18.

On motion of Mr. Janney, it was resolved that the order passed by the Board prohibiting publication of their proceedings be rescinded.

After a vote of thanks to the secretary, there being no further business before the meeting, the Board, on motion, adjourned.

**VOLUNTARY AFFAIRS.**—Policeman Geo. H. Lyles having preferred charges against Capt. James Webster of the police force, for dereliction of duty, at the Captain's instance an examination was held at the Mayor's office this morning before the Mayor and the Police Board of the City Council, consisting of Messrs. J. S. French and G. H. Markell of the Board of Aldermen, and W. W. Rock of the Common Council.

Many witnesses, including the President of the Common Council, and all the members of the police force were examined, and though no decision was arrived at, in consequence of the indecision of the examination, it is understood that none of the charges were sustained, and that a full and honorable acquittal of the Captain will be the result, and that the investigation has proved that he is a more efficient officer than ever by his best friends imagined.

**IMPROVEMENTS.**—Among the many improvements in the way of new buildings now going on in this city, may be mentioned the erection of a new three-story house by Mr. Acton on King street, the erection of four stores at the foot of Cameron street by Mr. Evans; the building of a new house by Mr. Cavanaugh on the corner of Wolfe and St. Asaph streets; the building of a new frame house near Milford's ranch factory; improvement to the Marshall House; recreation of Christ Church rectory; the building of a new three-story brick house by Mr. Norrille, near the Henry street depot; two new brick houses by Mr. Lambdin on Fayette street, between Cameron and Queen; three-story brick house by Mr. Thomas Lannon on north Pitt street, and a steeple for Grace Church.

Seaver, charged with an attempt upon the life of complainant, was dismissed, as the charge was not sustained.

Among the desirable improvements to Alexandria none would be more agreeable, especially during the summer months, than a good road for a drive in the afternoon. There is an excellent road on the opposite side of the river, but it is too troublesome to reach it. On this side there is at present no road over which one would care to drive a nice team. With a little expense the Leesburg turnpike, near the city, could be made available in the emergency.

**The Injunction Against the Street Railroad.**  
The reason why it was desired to stop the progress of the Street Railroad was because Colonel Clifford was afraid that the turning up of King street would interfere with the country custom of his friend, Mr. SIMON BLONDHEIM, corner of King and Fairfax streets. After consultation with Mr. B. the Colonel found that the street cars far from injuring Mr. B's business, would in the end be of service to it; and our citizens need now fear no further interruption to its progress. je 20
